CAREER OBJECT

An ambitious and dedicated professional eager to begin my career in an environment that supports continuous learning and growth. I am committed to developing my skills, maintaining a strong work ethic, and approaching every task with responsibility. With a positive and adaptable mindset, I strive to make a meaningful and lasting contribution through my efforts.

EDUCATION

Degree/Certificate	Institute/Board	CGPA/Percentage	Year
B. Tech (CSE)	Vignan's Nirula Institute of Technology and Science	8.89	Oct 22 – June 2026
Senior Secondary	Vikas Junior College	84.6	Dec 20 – May 2022
Secondary School	ZP High School, Vellatur	9.3	June 19 – Mar 2020

PROJECTS

InheritChain – Blockchain-Based Digital Will System

[\[GitHub\]](#)

- Developed a secure digital will management system using Blockchain, Django, and IPFS.
- Implemented tamper-proof record storage and decentralized document management for enhanced security and transparency.
- Integrated Post-Quantum Cryptography to protect sensitive inheritance data against future cyber threats.

Secure Scripts AI System

[\[GitHub\]](#)

- Built a document security platform integrating AES encryption, steganography, OTP verification, and biometric authentication to prevent unauthorized access.
- Achieved 100% secure access by combining AES encryption, biometric verification, and steganography.

INTERNSHIPS

Machine Learning Intern – Purple Technologies

June 2024 – July 2024 Campus Placement Prediction

[\[GitHub\]](#)

- Built a machine learning model to improve campus recruitment strategies by predicting student placements with 98% accuracy.
- Applied Python, Scikit-learn, Pandas, Matplotlib, Seaborn, HTML, and CSS for end-to-end model development and analysis.

Data Analyst Intern – IBM SkillsBuild

May 2024 – June 2024 Sentiment Analysis on Restaurant Reviews

[\[GitHub\]](#)

- Performed sentiment analysis on restaurant reviews to assess service quality, achieving 90% prediction accuracy.
- Leveraged Python, machine learning algorithms, HTML, and CSS to build an interactive analysis tool.

SKILLS

Technical Skills

- Programming Languages:** Java, Python, MySQL, ORACLE Machine learning and OOPS (Concepts) and Excel.
- Web Technologies:** HTML, CSS, JavaScript, Django, Streamlit, Basics of Block chain.

Soft Skills

- Leadership, Problem-Solving, Logical Thinking, Time Management, and Adaptability.

RESEARCH PUBLICATION

"Load Balancing and Virtual Machine Migration Model for Delay Reduction in Cloud Environment" [\[Read Paper\]](#)

- Published in JETIR, Volume 11, Issue 10 (UGC Journal No: 63975); downloaded over 100 times.

CERTIFICATES

NPTEL: Joy of Computing Using Python (Score: 60) and Programming in Java (Score: 60)

edX: Data Science with Python .

- Infosys Springboard:** Python, Java
